

# [Onboarding] Blueprints

Blueprints are only available to guide you. They are not required for the normal behavior of Requirement Yogi.

**Create** Filter Help

Select space: **Demonstration Space** Parent: Baseline 4

- Baseline**  
Create a baseline of the current requirements in Requirement Yogi.
- Dictionary**  
Define key/value terms (part numbers, error codes...) to use with Requirement Yogi.
- Product Requirements Document (PRD)**  
Write specifications for a new feature (Requirement Yogi)
- RY Test Session**  
Create a session for testing

[Add or customise templates for the selected space](#) Create Close

- Requirement Yogi has 3 blueprints.
- RY Test & Compliance has 1 blueprint (the test session).

## Start with the PRD

# Dictionary

This is not the best place to start a dictionary: Better start with [the inline creation dialog!](#)

# RY Test Session

This blueprint lets you test requirements. That is, for each requirement, have a success/fail toggle.

### RY Test Session

App: **✓ RY Testing & Compliance**

Generate tests for  The current page  
 All requirements in the space  
 A search query

Relationship:  Default: "Tests". It's a verb and helps categorizing the results.

**Generate the table automatically**

It could be long to write a test scenario. The search query, if you provide it, will accelerate your work by generating a table with the list of requirements. Each row will have a toggle to set the test result (sucess/fail).

## Test Session

Please describe your tests and, eventually, link to the requirements you're testing.

Requirement	Test	Result	Comments
Requirement   FN-003   Link	Describe how to check that FN-003 is verified.	<input checked="" type="checkbox"/> RY Test Result	The person who tests can write a few comments here.
Requirement   FN-004   Link	Check under the rig whether all lights are green.	<input checked="" type="checkbox"/> RY Test Result <input type="checkbox"/> (x) Fail	One light is blinking. I doubt this is normal.
Requirement   REQ-001   Link		<input checked="" type="checkbox"/> RY Test Result	
Requirement   REQ-003   Link		<input checked="" type="checkbox"/> RY Test Result	
Requirement   REQ-004   Link		<input checked="" type="checkbox"/> RY Test Result	
Requirement   REQ-005   Link		<input checked="" type="checkbox"/> RY Test Result	
Requirement   REQ-006   Link		<input checked="" type="checkbox"/> RY Test Result
