

# Differences between Server and Cloud

## Features of Play SQL Cloud

Here is the list of differences between Play SQL Spreadsheets for Confluence Server and Confluence Cloud.

Feature	Server	Cloud	Details
Spreadsheets	✓	✓	
Sorting and autofilters	✓	✓	
Formulas	✓	✓	
Totals	✓	✓	
Audit Trail	✓	✓	
SQL Queries	✓	✓	
Joint Tables	✓	✓	
SQL API	✓	✗	Not available on Cloud.
Excel Export	✓	✓	Please see the <a href="#">import/export</a> page for details.
Permissions	✓	✗	Not available on Cloud. All users can access all data, because we cannot access the space information.
Page and User renderers	✓	✗	This is the ability to add links to pages and users from cells in spreadsheets. Not available on Cloud.
Forms	✓	★	Forms are available on Cloud, but they can't be embedded on a page.
